sewing.

Working Knowledge of:

cooking, carpentry, light
automotive repair.

Work Experience

Punch

Lead Developer, 2012 to present

Punch is a small agency where everyone wears multiple hats. From helping found the web team in 2012 to leading the dev team in 2017, I have stretched into new responsibilities like photography, business development, and management.

Web Development: Developed CMS-driven websites for clients including Special Olympics of Virginia, Children's Hospital Foundation of Richmond, and Anthem.

Team Lead: Represented the development team to scope and win over \$500,000 in contracts. Educated coworkers in web design and development, including a full "Intro to Web Design" curriculum.

Photography and Video: Produced videos for Punch promotional efforts as well as clients like Swedish Match. Photographed products, portraits, and indoor and outdoor locations.

Barbato, LLC

Web Developer, 2009 to 2012

Developer for WordPress and ExpressionEngine sites for direct clients and local agencies.

Award-winning Front-End Dev: Developed websites for local organizations such as New Kent Fire and Rescue and Weinstein Properties, which won a Richmond Ad Club award.

TDC Design

Web Developer, 2008 to 2009

Front-End Developer at a small shop with local and national clients.

Web Development: Developed ExpressionEngine and other CMS-based sites for clients like The Rhodes Trust and The Virginia State Bar.

Interactive Development: Developed interactive, content-driven features such as The Center for Public Integrity's "Subprime 25" trading-card game.

Education

Virginia Commonwealth

University, Bachelor of Fine Arts,
Sculpture + Extended Media, Film
Minor; 2000.

Royall & Company

Senior Web Designer, 2006 to 2008.

Managed multiple product lines for 15-20 clients on my team, and developed the company-wide quiz program. Also mentored and trained fellow Web Designers on process and best practices.

Web Development: Developed web experience portion of searches, online college applications, and other direct marketing efforts for clients such as Rensselaer Polytechnic Institute and Baylor University.

Interactive Development: Programmed and animated interactive quizzes. Developed template quizzes for efficiency and data collection.

Biznet Internet Services

Web Designer, 2004 to 2006

Design and Development: Designed and developed websites. Created online banner ads, print ads and brochures. Clients included The Houston Texans and The Richmond Ballet.

Wadi Magazine

Web and Print Designer, 2003 to 2004

Wadi was one of the successful attempts to fill the void left when Punchline folded in 2003. I got paid nearly nothing, but I learned a lot.

Website Development: Designed, developed, and maintained website for a print publication. Built ad hoc CMS using ASP and MySQL.

Print Design and Layout: Designed ads and laid out magazine. Managed team of interns and scheduled content and print deadlines.

Ocean Systems Engineering Corporation

Flash Developer, 2001 to 2003

Interactive courseware development for a small military contractor. Helped secure OSEC's first commercial contract. Obtained Secret clearance.

Interactive Courseware: Programmed and animated modules for military and commercial organizations. Illustrated and animated courseware such as the Electrostatic Discharge Awareness course.

Video, Music, and Sound Production: Produced instructional and promotional videos. Created theme music, sound effects, and produced voice-over for courseware and videos.
